PROFESSIONAL SUMMARY

IT & Software Development professional with 6+ years of IT support experience and 3+ years of software development experience in C#, Java, and web technologies. Skilled in developing ERP and POS systems, database management using MySQL and SQL Server, and full-stack development using HTML, CSS, JavaScript, React, Node.js, and .NET fundamentals. Strong understanding of OOP, REST APIs, and the full software development lifecycle.

Currently pursuing a BSc Top-Up in Software Engineering, focusing on modern full-stack development. Seeking an Intern Software Engineer role to further strengthen skills in enterprise software development and modern web technologies.

KEY SKILLS

- **Programming Languages:**
C#, Java, JavaScript, TypeScript, HTML5, CSS3
- **Frontend Development:**
Responsive Web Design, UI Development, Basic React, Angular (learning), Bootstrap, Flexbox, Grid
- **Backend Development:**
.NET Core Basics, ASP.NET Web API, REST APIs, Node.js (basic)
- **Databases:**
MySQL, Microsoft SQL Server, SQLite, MongoDB
- **Tools & Version Control:**
Visual Studio, VS Code, Git, GitHub, IntelliJ IDEA
- **IT & Technical Support:**
Hardware/Software Troubleshooting, Networking (LAN/WAN, TCP/IP), VPN, Remote Support Tools (AnyDesk, TeamViewer)
- **Enterprise Systems:**
ERP Systems, POS Systems, SAP Operations (basic: inventory & workflow)
- **Reporting & Printing Systems:**
JasperReports, Crystal Reports, Barcode & Thermal Printer Integration
- **AI & Productivity Tools:**
ChatGPT, GitHub Copilot (for coding, debugging, and learning)

PROFESSIONAL EXPERIENCE

IT SUPPORT TECHNICIAN / SOFTWARE & HARDWARE SPECIALIST

UCC Power International Holding, Riyadh, Saudi Arabia Nov 2024 – Jan 2026

- Provided Level 1 & Level 2 IT support for desktops, laptops, servers, and printers
- Managed LAN/WAN networks, Wi-Fi, VPN configuration, and system security updates
- Handled SAP operations (SMR, Post GR, MRF/PR creation, workflow approvals, warehouse stock management)
- Performed system backups, antivirus deployment, and IT asset documentation
- Assisted in troubleshooting enterprise application and hardware issues

JUNIOR SOFTWARE DEVELOPER

InforTech Solution, Negombo, Sri Lanka Aug 2021 – Oct 2024

- Developed ERP and POS desktop applications using C# and Java (JavaFX, Swing)
- Built database-driven applications using MySQL and Microsoft SQL Server
- Designed and implemented REST-like backend logic for internal systems
- Developed responsive web interfaces using HTML, CSS, and JavaScript
- Created reporting solutions using JasperReports and Crystal Reports
- Integrated barcode scanners and thermal printers into retail systems

IT SUPPORT TECHNICIAN / TECHNICAL SUPPORT ANALYST

DIGI Bytes Computer, Chilaw, Sri Lanka Feb 2019 – Mar 2021

- Provided hardware and software support for Windows, macOS, and Linux systems
- Performed system installation, configuration, and user setup for client environments
- Delivered remote and onsite technical support using RDP, TeamViewer, and AnyDesk
- Handled hardware repair and upgrades (RAM, HDD/SSD, motherboard, PSU)
- Diagnosed and resolved system, software, and network issues including performance, boot, and connectivity problems
- Managed printer setup, driver installation, and troubleshooting
- Performed virus removal, system cleanup, and performance optimization
- Configured basic LAN/network setup and connectivity troubleshooting
- Supported users with daily IT issues and system maintenance

EDUCATION

- **BTEC Higher National Diploma in Computer & System Development**
ESOFT Metro Campus — Completed 2019
- **Diploma in Windows Network Administration**
BCAS — Completed 2017
- **Diploma in English, Business & Technology**
International Campus (UK-affiliated) — Completed 2015
- **BSc (Hons) Software Engineering – Top-Up Degree**
Currently preparing for the next intake (Enrollment in progress)

PROJECTS

- **Jewellery E-Commerce Website**
Modern luxury jewellery website with responsive UI, product showcase, and smooth user experience designed for online branding and sales.
- **Gold Testing & Valuation System**
Desktop system with webcam integration, image capture, customer management, and automated gold analysis reporting for business operations.
- **Jewellery ERP & Stock Management System**
Full ERP solution for jewellery businesses including inventory tracking, sales processing, customer records, and reporting dashboard.
- **Live Currency Exchange Dashboard**
Real-time currency monitoring system with live exchange rates, multi-currency comparison, and clean financial analytics interface.
- **Smart POS & Billing System**
Point-of-sale application with billing, inventory control, invoice generation, and sales tracking for retail business management.
- **Personal Portfolio Website**
Responsive portfolio website built with modern UI/UX to showcase projects, skills, and professional experience.

KEY STRENGTHS (MATCHED TO JOB ROLE)

- Strong understanding of OOP, data structures, and debugging principles
- Hands-on experience in front-end and back-end web development
- Proficient in HTML, CSS, JavaScript, and modern UI development
- Experience with React for building dynamic and responsive user interfaces
- Backend development experience using Node.js and REST APIs
- Familiar with database integration and full-stack application development
- Exposure to .NET ecosystem and enterprise-level application concepts
- Experience working in Agile environments with code collaboration practices (Git/GitHub)
- Skilled in using AI development tools such as ChatGPT and GitHub Copilot
- Fast learner with strong problem-solving and analytical thinking abilities
